EQUIPMENT SALES

## G&C Welcomes Our Newest Manufacturer: King Electric

With over 50 years of experience and excellent workmanship, King Electric is the source for all your electric heater needs.

### *Draft Barrier Heaters, Model KCB*

Aesthetic alternative to conventional electric baseboard with aluminum extrusion cover for added strength.

### *Cabinet Heaters, Model KLI*

Sloped top convection heater well suited for applications requiring a power rating of 6000W without fan noise.

### *Unit Heaters, Model KFUH*

Dependable suspension heater perfectly suited for high ceiling applications such as warehouses, parking garages, and docks.

### *Kick Space Heaters, Model KT*

Narrow profile heater, designed to fit under kitchen or bathroom cabinets, providing warm air for cold bathroom or kitchen floors.

*And much more.*

## Sleek Styling, High Efficiency: Sterling's ThermaQuiet

Introducing Sterling's ThermaQuiet, low temperature, high efficiency, hydronic fan coil. Controlled via a user-friendly integrated micro-processor control platform, the stylish ThermaQuiet is designed to provide superior output and performance at reduced supply water temperatures, minimizing energy consumption while maximizing operating efficiencies.

### *Features*

- Attractive, stylish design
- Solar & heat pump compatible
- Microprocessor control platform
- Insta-heat "boost" function
- Diagnostic & performance LED indicators
- Simple, low cost installation
- Cool-touch exterior
- 3,000-14,340 BTU/h
